Family Business Visit
Hotel Mama Cuchara

FBN Ecuador invites you to a family visit to Hotel Mama Cuchara.

Set in the colonial part of the city of Quito this hotel is part of the Art Hotels chain, born from the desire to restore, preserve and share historically significant properties throughout Ecuador. Their sustainable approach to tourism and the engagement of the hotel with the local community will make this visit an opportunity to learn about the culture of Ecuador and the warmth of its people.

We will be hosted by the 3 Vergara siblings who are partners in this hotel chain, which was born separately from their original family business where they are 3rd generation members.

We will have the chance to have a live chat with them.
